The diagram shows two scenarios for setting a value using the L key:

- Correct Scenario (Top):** A hand presses the L key while the '+' button is highlighted. This leads to a sequence of four door icons, then a box labeled 'H2', a green checkmark, and finally the number '14' next to a gear icon labeled 'AUTO'.
- Incorrect Scenario (Bottom):** A hand presses the L key while the '-' button is highlighted. This leads to a sequence of four door icons, then a box labeled 'H4', a red 'X' in a circle, and finally two motor control blocks labeled 'M1' and 'M2'. Each block has three inputs (+, -, FC) and three outputs (11, 12, 13 for M1; 14, 15, 16 for M2). Below each block is a circular arrow icon labeled 'M1' and 'M2' respectively.

The text "or/ou" is placed between the two scenarios.
